**UBTA-UBET Communications, Inc.'s Demonstration of Ability to Function in Emergency Situations.**

UBTA-UBET Communications, Inc. hereby certifies that it is able to function in emergency situations as set forth in §54.202(a)(2).<sup>1</sup> The Company's network is designed to remain functional in emergency situations without an external power source, is able to reroute traffic around damaged facilities, and is capable of managing traffic spikes resulting from emergency situations as required by Section 54.202(a)(2). The Company can change call routing translations as needed to reroute traffic around damaged facilities. Changing call routing translations will also allow the Company to manage traffic spikes throughout its network, as emergency situations require.

Specifically, each central office building is supplied with standby generators and battery back-up that enable the central office to keep running until power is restored so long as fuel is available, or until system changes are made to reroute traffic. The Company's central office can maintain 8 hours battery reserve rated for peak traffic load requirements, and a permanent auxiliary power unit is installed which can be delivered and connected within four hours. The Company has battery backup at all office locations and in its electronic equipment sites capable of running for a minimum of 8 hours. Length of run time is determined by the equipment serving the area and the number of customers working out of the equipment. Generators are installed at all Central Office

 Study Area Name: UBTA-UBET Communications  
 Program Year: 2012

UBTA-UBET Communications' service area includes providing landline services to the UTE Indian Tribe – Unitah & Ouray.

During the year 2012 UBTA-UBET Communications complied with the requirements of 47 CFR § 54.313(a)(9), Tribal Engagement Obligations, including, (i) A needs assessment and deployment planning with a focus on Tribal community anchor institutions; (ii) Feasibility and sustainability planning; (iii) Marketing services in a culturally sensitive manner; (iv) Rights of way processes, land use permitting, facilities siting, environmental and cultural preservation review processes; and (v) Compliance with Tribal business and licensing requirements.

§54.313(a)(9)(i) A needs assessment and deployment planning with a focus on Tribal community anchor institutions.

While communication services have been provided to the Tribal community since the early beginning of UBTA-UBET Communications in 1954, and overtime to all Tribal Anchor institutions, the Tribe decided that as a sovereign nation, it needed to have its own fiber between key locations and institutions. Working together, the Tribal government and UBTA-UBET Communications determined the best solution was for UBTA-UBET Communications to place the fiber according to the engineered plans. The fiber was successfully put in place as desired.

UBTA-UBET communications works with the Tribe to understand their needs and plans to assures services are available as needed. Services of UBTA-UBET are available to Tribe members and Tribal locations and are provided on a non-discriminatory basis.

§54.313(a)(9)(ii) Feasibility and sustainability planning.

UBTA-UBET Communications and the UTE Indian Tribe have been working in cooperation since 1954, together we have proven the feasibility and sustainability of communication services to the Tribal area. Through the needs assessment and deployment planning process the need for fiber facilities to the Tribal Fish Hatchery was identified. Through out the year 2012, we worked with the Tribal to place the fiber to the Fish Hatchery. While that project has been delayed due to some right-of-ways not yet acquired, the project remains a unified effort. This fiber project was the result of communicating with the Tribal government regarding the services available versus the services needed.

While placing the Tribal owned fiber to Tribal Anchor Institutions during the year 2012, communication between both parties continued. Those communications identified that for the best use of the fiber and its planned connections, the fiber needed extended beyond the original plan. The feasibility of the extensions was discussed and evaluated and the conclusion was made that the fiber extensions would be sustainable. This collaboration resulted in a fiber architecture connecting the anchor institutions of the Tribe enhancing and sustaining its efforts related to sovereignty.

§54.313(a)(9)(iii) Marketing services in a culturally sensitive manner.

Working with the Tribal government specific opportunities via current tribal information and education programs have been identified to promote awareness of lifeline services and employment opportunities. This has resulted in improving the dissemination of this important information.

§54.313(a)(9)(iv) Rights of way process, land use permitting, facilities siting, environmental and cultural preservation review processes.

The Tribal government keeps UBTA-UBET Communications informed of the processes required for Rights of Way, land use permitting, facilities siting. UBTA-UBET Communications works with the appropriate Tribal office and designee to assure full compliance with the Tribal processes.

UBTA-UBET Communications works in unison with the Tribe to assure environmental and cultural preservation needs are not overlooked or harmed.

§54.313(a)(9)(v) Compliance with Tribal business and licensing requirements.

During 2012 UBTA-UBET Communications complied with all business licensing requirements and access permitting of the Tribe through-out the year 2012.
